Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets. Currently, as shown above Valiant Integrated Services Ltd., has no emissions as it has no employees nor does it have a current workplace in the UK. We project that once it is an active company with employees and a workplace we will update our baseline emissions and that of the next FY. Once accomplished we will be able to illustrate our goal to decrease carbon emissions over the next five years to a defined tCO₂e by 2030. Our reduction goal would be an initial 5% since we intend to begin operations limiting our Carbon footprint.

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2021 baseline. The carbon emission reduction achieved by these schemes equate to 0 tCO₂e, a 0%ge reduction against the 2021 baseline and the measures will be in effect when performing the contract. Valiant Integrated Services Ltd., has had nil emissions.

On commencement of operations in the UK, Valiant Integrated Services Ltd. intends to implement use of LED/PIR lighting in any facility we lease or own. Further Valiant Integrated Services Ltd., will encourage all employees to use public transportation to the greatest extent possible. Once it begins work in the UK, the Company will seek further methods to reduce its carbon footprint.

² Please note, Valiant Integrated Services Ltd., has no employees and no workplace in the UK. Therefore, it currently has Nil. emissions.
