TRAINING TODAY FOR THE COMPLEX MISSIONS OF TOMORROW

TRAINING MANAGEMENT

Senior trainers teach and coach units during annual and multi-year training plan development, building individual to collective mission essential task proficiency.

TRAINING AT POINT OF NEED

Valiant brings complete training resource packages to National Guard and active-duty bases around the country, allowing units to train on their schedule, close to home.

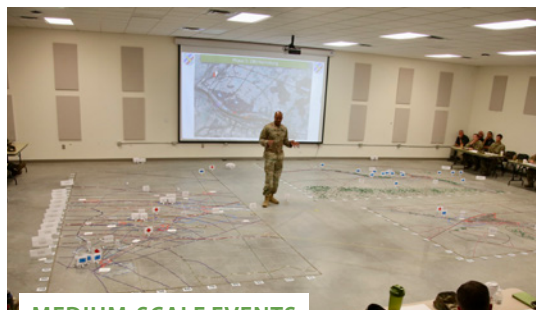

LIVE FIRE TRAINING

Training lanes are customized to meet the commander's objectives and encompass maneuver and support units. Lanes incorporate the full range of battlefield effects, including civilians and foreign national role players, to replicate realistic operational conditions.

SMALL-SCALE EVENTS

Focus on individual soldier and leader training through classroom operator instruction on the Army's suite of Mission Command Information Systems; establishment, networking, and displacement of command posts, power generation and distribution; and more.

MEDIUM-SCALE EVENTS

Focus on collective staff exercises at the section/combined staff level where tactical vignettes drive practical exercises including successful tactical orders, battle rhythm events, command post battle drills, and instrumented after-action reviews.

LARGE-SCALE EVENTS

Culminating event Command Post (CPX) and multi-echelon Field Training Exercises (FTX) that combine live maneuver with a constructive wrap-around environment during annual training in tactical field conditions.

FEATURED EXPERIENCE

MISSION COMMAND TRAINING SUPPORT PROGRAM (MCTSP)

SUPPORTING: Individual and collective mission command training in live, virtual, and constructive environments for all ARNG battalions, brigades, and divisions throughout the 54 States, Territories, and District of Columbia to aid commanders in achieving their mission command readiness aim points.

EXPORTABLE COMBAT TRAINING CAPABILITY (XCTC)

SUPPORTING: Delivery of a capstone training event for Brigade Combat Teams (BCT) to attain T-Level (T3) training readiness. Fully instrumented, highly realistic immersive training environment that enables BCTs to meet specific Army training requirements in the sustainable readiness model.

NGB J2 INTELLIGENCE ANALYSIS SERVICES (NGB J2)

SUPPORTING: Provides intelligence analysis in order to inform all National Guard Bureau (NGB) stakeholders on current domestic and foreign threats. Supplements Domestic Operations, National Guard Civil Support Department of Defense (DoD) Support to Civil Authorities (DSCA), Intelligence Oversight (IO), INFOSEC, and SCIF construction data analysis. Work is performed at ARNG Readiness Center and the Pentagon.
